THE HAVEN

HHC FOR CONSTRUCTION

1

.EXTERIOR

DESIGN CONCEPT

The Haven reimagines urban living through a sculpted composition of soft horizontal lines and transparent volumes. Integrated greenery enhances both environmental quality and visual identity, establishing a harmonious dialogue between built form and nature.

The Roof

A contemporary rooftop designed as a seamless extension of indoor living, blending clean architectural lines with a calm, open atmosphere. The space balances functionality and relaxation through a minimalist palette, integrated greenery, and carefully positioned seating areas. A reflective pool and shaded lounge zones create a sense of privacy and tranquility.
